STILL IN BALANGE An Old Case is to Be Revived Involving C. & O. Station Site.

Jukes R. H. Cardwell, of the Supreme Court of Appeals, yesterday granted a writ of error and supersedess in the case of the Chesapeake and Onio Balbays Company vs. Charles E. Hunter's admin tatestor. The case is a rather unique one, in that it has been pending for six years, and that it arises out of condemnation proceedings.

It seems that when the Chesapeake and Onio Company was about to build its new

demnation proceedings. It seems that when the Chesspeake and Obio Company was about to build its new station, the Storehouse and property is Charles E. Hunter was condomned for use. The commissioners were named by Judge Witt, and they fixed the value of the property at \$2,98°. The administrator claims that this amount is imadequate in that the commissioners should have taken into consideration the fact that life Hunter had a good business scan and a five trade, as well as the value of the land and home. Meyers, St. George R. Flizhugh, of Frederickshure, and A. W. Patterson of this city, are connected.
